KANSAS CITY STOCK YARDS,
Kansas City.
COVER 129 acres of land. Capacity: 10,000 Cattle, 25,000 Hogs, 2000 sheep, and 300 Horses and Mules. These yards have better facilities for handling stock than any other yards west of the Mississippi river. They are conveniently arranged and thoroughly drained. Buyers for all Eastern markets are here at all times, and the prices paid make this the best market in the country for the Western stock-raiser. C. F. MORSE, General Manager; E. E. RICHARDSON, Ass't Treas. and Ass't Sec'y; C. P. PATTESON, Traveling Agent.

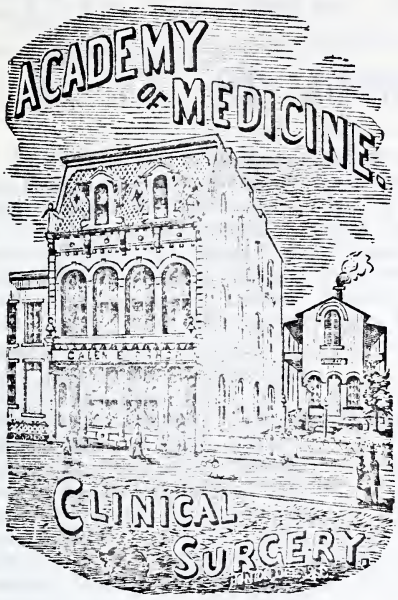
Iateria Zoopoioun.



The *New System* of the Philosophy of Medicine. Different from and superior to the ordinary theories and practices, as taught and followed in this country and in Europe, by the different sects of Medical Practitioners.

As this system originated with me, it is known to none but me; no other Physician living is acquainted with my theories of Medicine as applied to the treatment of Diseases at the

ACADEMY OF

Medicine and Surgery,

Where all Diseases, Medical and Surgical, are treated with a success superior to that of any other quarter of the world. Where the gems and scattered facts of True Medicine, gathered from the rubbish and fossil debris of the decayed theories of obsolete sects and the weary mass of false doctrines of present contending systems, are clustered into the focal brilliant of Divine truth—*The Iateria Zoopoioun.*

"Ti stenee hee pulee, kai tethlimmenee hee hodos hee apagousa eis teen Zoeen; kai oligoi eisin hoi heuriskontes auteen."

Perfect familiarity in the use of the Stethoscope, the Laryngoscope and Rhinoscope, the Ophthalmoscope, and all other newly-discovered and improved instruments for the diagnosis of the Diseases of the Chest, Throat, Nose, Eye and other organs.

For Diseased, Weakly and Declining Females, trembling and wan, near death's door, with Heart, Liver or Uterine Diseases—and there are many of them ready to be swept away by some severe attack at any moment—my treatment is far superior to any known to the medical profession generally; and no such invalids should despair or give up because other doctors have failed to cure them.

I also make a specialty of Private and Venereal Diseases—Gonorrhœa, Spermatorrhœa, Syphilis, and their sequelæ, and bring to bear on some of these most formidable diseases a bright array of Therapeutic Agents. Secondary and Tertiary, or Constitutional Syphilis, requires a profundity of medical knowledge and experience that but few Physicians have, and a deeper philosophy than most of them have ever penetrated.

Persons writing to me will not forget to give their Postoffice, Town, County and State, and when ordering Medicine by Express, their Express Office—inclosing the old labels where Medicine is to be repeated.

THE ST. JOSEPH NORMAL BUSINESS COLLEGE,

IS LOCATED AT THE

Southeast corner of Sixth and Edmond Streets,

Having a street car line on the north and west, which makes it accessible from the Principal Depots, and all parts of the city.

The Practical Basis upon which the Curriculum of this College is governed, makes it superior to any other in the West. Young man, attend the St. Joseph Normal Business College and acquire a Practical Education, and then you will be able to think logically, reason philosophically, and express yourself rhetorically; make your own calculations; keep your own books; send by Telegram your own messages; write, phonographically, 150 words per minute, and execute with the pen the most beautiful designs that the eye has ever beheld. In short, be a man among men.

The Business Department of this College has facilities unequalled. Lectures on Commercial Law, Political Economy, Black-board illustrations of difficult Journal Entries and contracted mathematical calculations are daily made; also, each student receives private instructions at his desk.

TELEGRAPHY—This is the only College in the West which makes a specialty of this branch. Here, students become Practical Operators in from three to six months. This is a desirable, as well as a lucrative avocation.

Phonography, or short-hand, is taught here and nowhere else in the city. We insure students to get a Position at $100 per month, when they are able to write 150 words per minute.

The Course in the Penmanship Department consists of Rapid Business Writing, Off-hand Flourishing, Lettering, Engrossing, Card-writing, Designing, and every description of Pen-work known to the profession is taught in this Department. The above cut was flourished by T. C. Chapman.

ST. LOUIS, MO.

St. Louis has a population of over 350,522; is the sixth city in the United States; a port of entry, and county seat of St. Louis County; situated on the west bank of the Mississippi River, 20 miles below the entrance of the Missouri, 174 miles above the mouth of the Ohio, 744 miles below the falls of St. Anthony, and 1,194 miles above New Orleans.

By the Mississippi and Missouri Rivers, and their affluents, it is the converging point of nearly fifteen thousand miles of steamboat navigation. Its river craft, plying between this and other points, number 647 vessels, of which 209 are steamers and 438 barges, all valued at $6,844,200, with a carrying capacity of 236,960 tons.

As a railroad center, St. Louis is the northern terminus of the St. Louis & Iron Mountain, the northeastern terminus of the St. Louis & San Francisco, the eastern terminus of the Pacific of Missouri, and the southeastern terminus of the St. Louis, Kansas City & Northern (formerly North Mo.) Railroads. By tubular steel bridge, costing with its approaches $10,000,000: southern terminus of Chicago, Burlington & Quincy, the southwestern terminus of the Chicago & Alton (and Jacksonville branch) and the Wabash Railroads; also the western terminus of the Indianapolis & St. Louis, the St. Louis, Vandalia, Terre Haute & Indianapolis, and the Ohio & Mississippi Railroads: and the northwestern terminus of the St. Louis & Southeastern, and the St. Louis, Alton & Terre Haute (Belleville & Southern Illinois Division) Railroads.

Penn's Treaty with the Indians.—Although historians differ as to the precise locality where this treaty took place, it is pretty generally conceded to have occurred under the great elm tree at Shakamaxon, in the vicinity of Philadelphia, in the year 1682. This treaty was never broken for a period of forty or fifty years, and during all that time the scalping knife and tomahawk were sheathed in peace with the white men of Penn's treaty.

ERADICATOR AND RESOLVENT, Healing Salve For Ulcers and CANCEROUS SORES.

REMEDIES!

HERBAL TONIC AND APERIENT, LIVER PILLS, Herbal Wine Tonic, For Female DISEASES.

The National Eradicator and Resolvent

Is the first known Remedy to have removed the Obstruction and Permanently Cured Organic Stricture without Caustic Torture or Surgery (Cutting); is harmless to Sound Flesh, and free from Poison.

A COMPLETE REMOVAL OF THE OBSTRUCTION GUARANTEED IN ALL CASES, OR MONEY REFUNDED.

A Permanent Cure can not be, and never was obtained, without its Removal.

Proof specimens of the obstructions thus removed may be seen, that those doubting may be convinced that what was supposed to be irremovable and incurable has been for the first time successfully accomplished.

The Fare to and from St. Louis, from any part of the United States,

Will be paid to the doubting afflicted on our failing to produce the specimens of obstructions, and substantiate it. **More no one could well ask.**

It is also a sure, safe and speedy cure for

CHANCRES, CORRODING OR EATING ULCERS ON ANY PART OF THE BODY, ULCERATION OF THE WOMB, FIBROUS OR POLYPOID TUMORS, LEUCORRHŒA, GLEET, GONORRHŒA.

The National Herbal Tonic and Aperient and National Liver Pills and National Herbal Wine Tonic, for Constitutional and other diseases of both sexes, have met with the most flattering success, having cured more than ninety cases out of a hundred of the various diseases afflicting the human system.

Diseases of the Blood, Liver, Spleen, Kidneys and Skin. Mercurial and Syphilitic Pains, Rheumatism, Debility, Nervous Weakness, Constipation, Bladder and Urinary Diseases, Colds, Biliousness, Intermittent Fever, Fever and Ague, etc.

And to say that it had cured a greater number by forty per cent., and leaving the system freer from pain than any other in use, would only be a confirmation of what those say who have given it a fair trial; among which were many cases of months and years standing. In Chills and Fevers, and Dumb Chills, it has not failed in to exceed five cases in a hundred to cure, and within ten days, and no coming back on the seventh, fourteenth and twenty-first day, as in Quinine treatment. **Price, $1.50, including Pills.** Full pint in bottle. Full directions in English and German accompany each bottle. Prompt attention given to all orders or information in regard to it.

Illinois & St. Louis Railroad Bridge, across the Mississippi River, at St. Louis, Mo.—The first caisson on which the stone piers were built was sunk on October 17th, 1869. It was sunk a depth of 130 feet from the surface of the river before the rock was reached. Each of the arches is over 500 feet in length; the center of the middle arch is 55 feet above water level. The east approach is 1,136 feet in length, and that upon the western side, 1,886 feet. Double lines of car tracks are constructed through the lower division of the bridge, which rests directly upon the arches, while the upper portion is 44 feet wide, divided between horse car roads, carriage ways and promenades. A tunnel from the west end of the bridge to the Union Depot was constructed at a cost of about $1,000,000, or about one-tenth part of the cost of the bridge.

Court House, St. Louis, Missouri.—Is situated on the square bounded by Fourth, Fifth, Chestnut and Market Streets. The building was commenced in 1826; to the original structure additions were made in 1839, and the building as it now appears was not completed until 1862. The design of the edifice, which is modeled after the form of a Greek Cross, includes an iron dome of fine proportions; from the summit of the dome, to which ascends an iron staircase, one gains a magnificent view far up and down the river, over church spires, parks, gardens, &c.

FIRE-PROOF.

PERKINS' (Pat.) DOUBLE PLATE CRIMPED IRON

Window and Door Shutter

They are Absolutely Fire-Proof,

Two inches thick (hollow), lined with Asbestos Sheating. Strong, durable, and cheaper than the ordinary Iron Shutters. Asbestos Sheating between plates, making two air spaces.

It is now generally conceded by Insurance Companies and the public generally, after severe and heavy losses, that ordinary Iron Shutters, of a single thickness of iron, will quickly heat through and set fire to a building, and warp and curl up when exposed to a fire, no matter what thickness of iron is used; but the Perkins Shutters have been repeatedly tried, and proved to be what is claimed for them. Send for circular and see the vast amount of property saved by their use. Approved by all leading Insurance Companies. Over half a million in use in the Northern and Western States.

A Wonderful Invention!!

THE

DUPLEX SOUND REFLECTOR.

Can be attached to any Organ or Piano in a few minutes, and will make a brilliant, pipe-toned Organ out of a harsh, sharp toned instrument. It also increases the power a hundred per cent.

It is easily attached to a Piano, and has a wonderful effect on the tone, making it pure, sweet and brilliant, and removing all the metallic, stringy qualities. It also makes the

TONES DEEP AND FULL,

And adds a beautiful singing quality that has never been surpassed.

The Most Eminent Musicians

Acknowledge that it is a grand success. It is placed inside a Piano or Organ, is easily adjusted and will never get out of order.

A good chance for Agents to make money. Attachment sells at sight. Send for Circulars and Testimonials, with stamp inclosed. Manufactured by

COTTRELL & RAND,

WARRENSBURG, MO.

WARRENSBURG; Jan. 1, 1882.

PROF. C. N. RAND—Dear Sir: Having had great experience with reed organs in this country, I take great pleasure in informing you that your invention—the Duplex Sound Reflector—adds a greater beauty to their tone than all other patents that I have ever known.

JOSEPH HEINE.
From the Queen's and Nobility's Concerts, London, England.

WARRENSBURG, MO., Feb. 1, 1882.

C. N. RAND—Dear Sir: I take pleasure in informing you that after a thorough trial of the Duplex Sound Reflector, which was attached to my organ, that it gives perfect satisfaction and has all the qualities you claim. It improves the tone of an organ in a wonderful manner, removes all the reedy qualities, and makes it almost exactly like a pipe organ, besides doubling the power. I would not have it removed from the organ for twice its cost. Respectfully,

JAMES LOGSDON.

WARRENSBURG, MO., March 3, 1882.

C. N. RAND—Dear Sir: I had your attachment, the Duplex Sound Reflector, placed in a fine organ which I had recently purchased, and after a thorough trial, my family and myself are united in the opinion that it adds great beauty to the tone of the instrument, and has all the merits and more than you claim for it. We will take pleasure in recommending it to others.

Respectfully, JOHN DELANEY.

WARRENSBURG, MO., March 2, 1882.

Having carefully examined the Duplex Sound Reflector, as applied to pianos and organs, I most heartily recommend it to the musical public. It gives to the piano or organ, whether new or old, a richness and depth of tone that must be heard to be believed as well as appreciated. I predict for Prof. Rand a grand success. W. WHITE.

(Prof. White is one of the finest musicians in the State, and has had large experience in the manufacture of pianos and organs.)

KNOB NOSTER, MO., Feb. 28, 1882.

C. N. RAND—Dear Sir: The Duplex Sound Reflector which was placed in my organ (Estey) has been thoroughly tested by my family and teachers of music, and we all think it adds great beauty to the tone of the instrument, as well as increasing the power to a very marked extent, and we take pleasure in recommending it to others.

Respectfully. JACOB SHUMAKER.

WARRENSBURG, MO., March 1, 1882.

C. N. RAND—Dear Sir: The Duplex Sound Reflector which was placed in my piano, a Decker Bros., gives entire satisfaction. I consider it a great improvement to the tone of the instrument, making it more brilliant and bringing out the high notes clear and distinct. I shall take pleasure in recommending it to others

F. A. WELCH,
Teacher of Vocal and Instrumental Music.

STATE NORMAL SCHOOL, 2D DIST.,
WARRENSBURG, MO., Feb. 21, 1882.

To Whom it may Concern:

We have recently had our organ repaired and still further improved by the attachment of one of Mr. C. N. Rand's Patent Duplex Sound Reflectors, and our organist reports great improvement in the instrument in consequence thereof.

Respectfully, GEO. L. OSBORNE.

KNOB NOSTER, MO., Feb. 28, 1882.

C. N. RAND—Dear Sir: We have tried the Duplex Sound Reflector on our cabinet organ, and it improves the tone in a wonderful manner, making it more smooth and brilliant. It also increases the power largely. I cheerfully recommend it to others. Respectfully,

G. P. HARRISON.

We have had hundreds of testimonials from the best people, but we are willing to let the Attachment stand on its own merits, well knowing that it will be accepted and adopted by all true lovers of good music.

THE

GREAT NORTHWESTERN NEWSPAPER!

The ST. PAUL and MINNEAPOLIS

PIONEER PRESS.

DAILY, SUNDAY AND WEEKLY.

Is published simultaneously in St. Paul and Minneapolis, having in each city a complete corps of editors, reporters, business managers, clerks and operatives.

It has its own telegraphic wire to Chicago and Washington; with its own reporters, operators and writers in each of those cities, besides three regular telegraphic and general correspondents at New York, and one each at Boston, London and Paris.

It has regularly salaried reporters resident in Stillwater, Rochester, Faribault, Winona Duluth, St. Cloud, Owatonna, Northfield, Red Wing, Hastings, Lake City, Mankato, and Austin, Minnesota; Madison, Eau Claire, Hudson and La Crosse, Wisconsin; Yankton, Fargo, Sioux Falls and Bismarck, Dakota; Fort Keogh, Montana; Winnipeg, Manitoba; Des Moines, Waterloo and Sioux City, Iowa; and Omaha, Nebraska. New salaried resident reporters are constantly being added to this list, and facilities for news are definitely established in every northwestern village and city.

It is an Eight-page Metropolitan Newspaper, printed, folded, cut and pasted, on a Hoe Perfecting Printing Machine, built expressly for the PIONEER PRESS, with a practical capacity of 14,000 complete papers per hour—the only one west of Chicago and north of St. Louis.

The SUNDAY EDITION

Is one of the best local and general newspapers in the world, and is specially edited for Sunday circulation in St. Paul, Minneapolis, Stillwater, and adjacent towns and cities.

The WEEKLY EDITION

Iis the great Family Newspaper of the Northwest; brim full of live Literary, Miscellaneous, Farm, Household and News matter, and gives great attention to the Railway, Land, River, Mining and Agricultural developments of the new Northwest.

CAUTION.

Pay no money in advance to itinerant Directory Canvassers. We mention this, from the fact that certain parties have been using our publications as specimens, and by that means collecting moneys in advance.

We ask no payment until our works are delivered; our Solicitors have strict orders not to take any money in advance.

THE REPUBLICAN,

Daily, $10.00 per year. | **Omaha, Neb.** | Weekly, with Premium, $1.50 per pear.

Printing, Blank Book Manufacturing, Lithographing, Wholesale Stationery, etc.

The premiums given with THE WEEKLY REPUBLICAN are the most liberal ever offered by any western weekly paper. The first annual distribution (Jan. 10, 1881) included $10,000 in premiums. The second annual distribution (Spring, 1882) included $20,000 in premiums. The four leading grand premiums were: A Chicago Pitts' Threshing Machine, with a Ten-horse power, $650.00; an Eighty-acre Nebraska Farm, $400.00; a Walter A. Wood Self-Binding Harvester, $315.00; a Gem Taber Organ, $300.00. Agricultural Implements, Watches, Sewing Machines, Jewelry, Silver-Plated Ware, Books, etc., are the other Premiums. Every Subscriber receives a Premium.

Watch out for the announcement of our Third Annual Premium Distribution; it will beat the first two. Send for Sample Copy; sent free.

☞**THE OMAHA WEEKLY REPUBLICAN** is a Twelve-Page, 72-Column Paper, and contains more Reading Matter every week than any weekly paper west of Chicago. This has been its unbroken record since April, 1880. Its Western State and Territorial News Department is maintained up to the highest degree of excellence. For Nebraska News it is unequalled. Many weekly papers which do not print half the amount of reading matter contained in the Weekly Republican, charge $2.00 per year, while the Weekly Republican is only $1.50 per year, and every subscriber receives a Premium. Ask your Postmaster for a sample copy, or send direct to The Republican, Omaha, Neb., for one.

Subscription Price, including Premium, $1.50 per year.

Remember, sample copies are sent free. Write a request on a postal card, for a sample copy, addressed to

THE REPUBLICAN,

OMAHA, NEB.

THE OMAHA BEE.

A live Republican Anti-Monopoly Newspaper; contains later and more Telegraphic News than any other western journal. Everybody reads it, because it is fearless, out-spoken and independent.

Advertisers will find it to their advantage to use the columns of the Bee, because everybody reads this paper.

Daily, $10.00 per year. Weekly, $2.00 per year.

Circulation of the Daily Bee, 7,300; circulation of the Weekly Bee, 26,000.

Rates of Advertising furnished on application.

APPLETON, WIS.

The county seat of Otagamis County, on the Fox River, 91 miles north of Milwaukee. Population, 8,500. Railroads—C. & N. W.; M. L. S. & W.; W. C. The body of water passing through this point is said to be over 12,000 horse power. The growth of this city, which has become an important manufacturing point in the State, has been due, in a great measure, to this vast natural power. There are several first-class hotels, of which the new Briggs House is the favorite of the traveling public. The proprietor, Mr. L. S. Townsend, spares no pains to make his guests comfortable, and his table is unsurpassed. 'Bus to and from every train.

GREEN BAY, WIS.

The county seat of Brown County, situated at the mouth of Fox River, and at the southwestern extremity of Green Bay, about 115 miles north of Milwaukee. Population, 8,000. Green Bay was first settled in 1745, being the oldest settlement in the Western States. Its railroad and lake facilities are almost unrivaled, and afford the merchants and manufacturers every opportunity for the shipment of their goods. The C. & N. W., the Wis. Central, and the G. B. W. & A. P. Railroads center here, giving access to the North, West and South, while the great chain of the lakes opens the whole Eastern States to its commerce. There are several hotels, of which the American House takes the lead. It is centrally located, and the most convenient for the traveling public. The proprietor, Mr. M. Hagerty, spares no pains to make his guests comfortable. He keeps a first-class livery stable in connection with it, and runs a free 'bus to and from trains and boats.

MADISON, WIS.

The capital of the State, and the county seat of Dane County, located upon elevated ground between lakes Monona and Mendota, with other lakes in full view. The lakes abound in the choicest fish, affording rare sport. Population 10,300. The Chicago, Miwaukee & St. Paul and the Chicago & Northwestern Railroads branch out in every direction, making Madison a railroad center easily reached from any part of the State.

MANITOWOC, WIS.

The county seat of Manitowoc County, situated on the west shore of Lake Michigan, and on the line of the M. L. S. & W. Railroad, 75 miles north of Milwaukee. Population, 8,000. It has a fine natural harbor, with a depth of 15 feet of water. Important manufacturing and other business interests are—Three large flour mills, three planing mills, four breweries, foundry and machine shop; agricultural implement, edge tool, furniture, and stave and heading factories; two banks, five weekly newspapers, and three hotels, of which latter the Northwestern House, Mr. M. Kettenhofen, Prop'r., takes the lead, and is a commodious and conveniently arranged establishment, with comfortable rooms, prompt and efficient servants, and unsurpassed table.

OCONTO, WIS.

Situated in the county of Oconto, near the mouth of Oconto River, where it empties into Green Bay. The C. & N. W. R. R. passes through the city, and steamers of the Goodrich Transportation Company touch here four times a week. Industries—Saw mills, foundries, planing mill and box factory, grist mill, etc. The city has one bank and three newspapers, the Reporter having the largest office, subscription list, and advertising patronage. There are also four hotels, of which Roth's Hotel is the only brick building. It is newly furnished, and the proprietor, Mr. G. Roth, spares no pains to make his house comfortable, while his table is unsurpassed. It is centrally located, and convenient for the public.

BEATTY'S { PIPE TOP BEETHOVEN } ORGAN

Suitable for the Parlor, Chapel, Lodge, Church or Sabbath School.

This beautiful Pipe Top Organ is made from seasoned Black Walnut. It will stand the test of any climate. It is elegantly proportioned, the **pipes are illuminated with brilliant colors lined with gold,** ornately carved. The case has a rubbed varnish finish, will not take the **dirt or dust.** It is called **'BEETHOVEN,'** as its musical effects are the most wonderful yet produced at any price, hence it is named after the World's greatest composer.

☞ For the purpose of placing this **Pipe Top Organ** upon the market without delay, so that all may see and acquaint themselves with its merits, I have fixed the price for the present at **ONLY**

$109.75

which includes a solid walnut Organ Bench, Music and Book.

27 STOPS.

Treatment.

These Baths are so constructed and operated, both mechanically and medicinally, that the patient can have all the benefits of the medical properties of the celebrated Hot Springs, with a guarantee that a cure will be effected in one-half of the time.

All I ask of the afflicted is to call and see for themselves. There is no water used with the Baths, therefore there is no danger of taking cold, no matter what the weather is.

PLATTEN'S STUMP-PULLER AND CAPSTAN.

COST, ONLY $100.

Has the ability and durabilty to clear all farms in the United States of Stumps, and do it in a remarkably short time. Three to four Stumps are often pulled at a single pull. The greatest number ever pulled in one day was 130 Pine Stumps, with three men and one pony, and even then the capacity of the Machine was not put to task, but that of the men. With more men, more Stumps would have been pulled. Question: How big a circle and how large a stump will it pull? Answer: As great a circle and large a stump as you please to use long and strong chains. Platten's Stump-Puller never breaks!! Machines, Shop, County and State Rights for sale.

Brattle Square Church, Boston.—Was first built in 1699, was taken down in 1772, and the building just demolished, erected on the same spot, was dedicated on the 25th of July, 1773. During the Revolution the pastor, who was a patriot, was obliged to leave Boston, services were suspended, and the British soldiers used the building as a barrack. A cannon ball from a battery in Cambridge, or from a ship of war in the Charles river, struck the church, and this memento of the glorious contest was afterwards built into the external wall of the church, above the porch. The old church was sold in 1871, and the last service was held in it July 30th of that year. The ancient pulpit, the organ, the old bell, the historic cannon ball, and some other mementoes, were reserved at the sale. A large business block now occupies the site of the church.

J. A. STACY'S

Improved

AUTOMATIC DRAIN VALVE

And Perpetual Air Chamber. Patented June 6, 1872. 162 Central Avenue, between Fourth and Fifth Sts., CINCINNATI, O.

This Invention is intended to prevent all danger of the freezing of the water in supply pipes. The moment the water is shut off, the valve on top of pipe opens and admits air to the same and insures a perfect drainage, without the necessity of opening any of the cocks about the premises. Send for Circulars.

CLEVELAND, OHIO.

County seat of Cuyahoga County, and second city of the State in size and importance. Situated on Lake Erie, at the mouth of Cuyahoga River, 138 miles from Columbus the capital of the State, and 244 miles from Cincinnati. It is a port of entry. Population, 160,146. Railroads—Cleveland, Columbus, Cincinnati & Indianapolis; Cleveland & Pittsburg; Lake Shore & Michigan Southern—occupy same depot; Atlantic & Great Western—occupies separate depot, to which the Cleveland, Columbus, Cincinnati & Indianapolis and Lake Shore & Michigan Southern trains are also run. Business interests—Commercial, manufacturing and mercantile. Hotels—Weddell House, Kennard, Forest City, American. There is also a good dining-room in Union Depot, where trains stop for meals. Public Halls—Case, seats 1,500; Euclid Avenue Opera House, seats 1,700; Academy of Music, seats 900. It is the northern terminus of the Ohio Canal, connecting Cleveland with the Ohio River at Portsmouth. The Cuyahoga River affords several miles of dock front, and in its winding course divides the city. The river and valley of the Cuyahoga are spanned, and the two divisions of the city united, by the viaduct, a great structure 2480 feet in length, and costing $2,250,000.

SANDUSKY, O.

The county seat of Erie County, situated on the south side of Sandusky Bay, an arm of Lake Erie. Population 1,700. Founded in 1816. Four railroads—the B. & O., the L. S. & M. S., the L., R. & W., and the L. E. & W.—touching at Sandusky, afford ample shipping facilities, while its excellent harbor increases its lake traffic, which is large. The principal products are wines, lime, ice and fish. The West House is the leading hotel, and its proprietor, Mr. A. W. Powers, holds a large and steady custom by his judicious management.

TOLEDO, O.

The county seat of Lucas County, situated on the Maumee River, four miles from Lake Erie, opposite the mouth of Swan Creek and the Wabash and Erie Canal, 202 miles from Cincinnati, 243 miles from Chicago and 113 miles from Cleveland. It is a port of entry. Population, 50,137. Railroads—Canada Southern; Cincinnati, Hamilton & Dayton; Flint & Pere Marquette; Lake Shore & Michigan Southern; Wabash, St. Louis & Pacific—occupy the same depot; Columbus & Toledo; Northwestern Ohio: Toledo & Ann Arbor—occupy same depot. Business interests—The principal business interests are grain, the receipts of which are below only Chicago and Milwaukee; lumber, being the great market for Michigan pines and Wabash black walnut, the latter being shipped in unbroken cargoes to Europe. The manufacturing interests are growing rapidly. The jobbing trade is very large. Ship building and finishing interests are also extensive. As a commercial center it is the terminus of over seven hundred miles of canal navigation. The Maumee River furnishes at Toledo the finest harbor on the great lakes.

I am the sole proprietor of the California Free-Stone Quarry, situated near Buena Vista, Scioto County, Ohio, and I have leased other good Quarries in that vicinity. My Stone, for durability and beauty, is the best ever brought to this city. ***It excels other Stone in every respect.*** I here refer Builders, Contractors and Stonecutters to the following buildings, which exhibit the Stone in attestation of what I state, viz: Mr. H. W. Derby's building, on the corner of Third and Walnut streets; Messrs. Mark & King's building, on Pearl street between Main and Walnut; the National Theater building, on Sycamore street between Third and Fourth; Mr. Netter's dwelling-house, on Eighth street between Vine and Race; Firemen's Insurance building, corner Front and Main streets; six storehouses adjoining the same; A. Wolf & Bro.'s building, on Vine street between Pearl and Columbia; five storehouses on corner of Pearl and Race streets; Mr. S. S. Boyle's building, on Columbia street between Sycamore and Broadway; Catholic Institute building, corner Vine and Longworth streets; Evans & Co.'s new banking-house, on Third street between Vine and Walnut streets; Kuhn, Netter & Co.'s new clothing-house building, corner Vine and Third streets; D. M. Marsh's building, on Dayton street between Linn and Cutter; B. Simon's dwelling-house, on Eighth street between Vine and Walnut; S. S. Cooper, Geo. W. Cochran, J. F. Cunningham, Harvey Decamp's dwelling-house, on Fourth street between Smith and Park; Jacob W. Holenshade, four dwelling-houses on Fourth and Park streets.

Board of Trade building, corner of Washington and La Salle streets; U. S. Custom House and Post Office, between Jackson, Adams, Clark and Dearborn streets; Open Board of Trade building, on La Salle between Washington and Madison streets; Merchants' Insurance building, corner of Washington and La Salle streets, and many other buildings in different parts of Chicago.

Omaha Post Office and Court House, Omaha, Nebraska.

Parkersburg Post Office and Court House, Parkersburg, West Virginia.

Covington Post Office and Court House, Covington, Kentucky.

And many other buildings throughout the country.

I keep constantly on hand a large quantity of Stone, which I am prepared to sell, and with my improved facilities for quarrying and shipping, I can supply dealers with what they may want without delay. Please call and examine the Stone.

ORDERS will receive ***prompt*** and ***close*** attention. Terms reasonable and satisfactory. All letters should be addressed to me, Post Office Box No. 592, Cincinnati, O. JOHN M. MUELLER.

ENAMEL PAINT

We use no Lime Water, Barytes, Asbestos, China Clay, Ground Marble, Whiting, or any such impurity, in making this Paint. We will present any one with 100 gallons of our best Paint, free of charge, if they prove we use either.

This Paint is Guaranteed

To be fully equal to the best Lead and Oil, both as to body and durability.

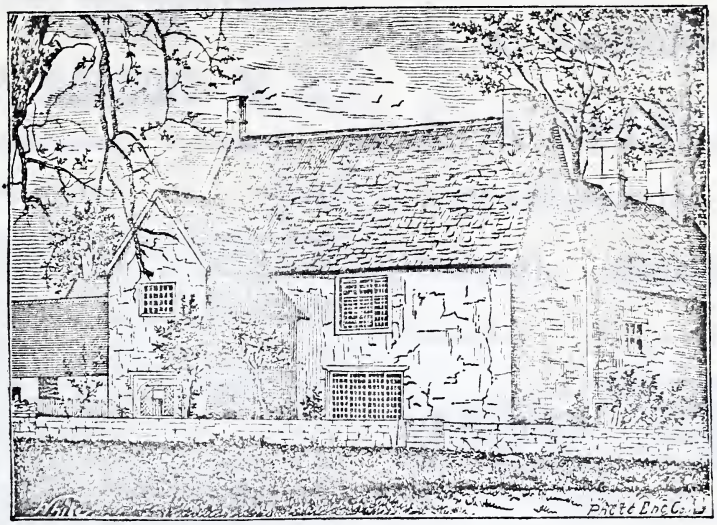
It will under no circumstances chalk or rub off, as most Lead does, and if applied on a dry and unfrozen surface will not crack or peel off.

If directions are followed in applying it, and a failure occurs (which will not be the case), we hereby agree to supply Paint to repaint buildings free of charge, and authorize our agents to do so.

We supply White, Black, and all shades of colors.

Samples and information sent free on application.

ENAMEL PAINT CO., CLEVELAND, O.



The Home of Washington's Ancestors.—The Manor House, Sulgrave, Northamptonshire, which was held of the priory of St. Andrew, was surrendered to the Crown upon the dissolution of the monasteries, and in the 30th of Henry VIII. (1529) it was granted to Lawrence Washington, gent, of Northampton. Robert Washington, his son and heir, conjointly with his eldest son Lawrence, sold the manor in 1610 to Lawrence Makepeace, gent, of the Inner Temple, London. Lawrence Washington, after the sale of his estate, retired to Brington, where he died, and his second son, John Washington, emigrated to America about the middle of the 17th century, and was grandfather of the great American patriot and father of his country, George Washington. Exposition Building and Music Hall, Cincinnati, Ohio.—The Tenth Cincinnati Industrial Exposition opens September 6 and closes October 7, 1882.

The great success that has attended the Cincinnati Expositions, is owing in a great measure to their plan of management. They have no stock-holders, no dividends and no private interests to subserve. They are managed for and in behalf of the citizens of Cincinnati, who guarantee all expenses by a Popular Guarantee Fund. The exhibition of Machinery in operation and for the display of Manufactures, Works of Art and Products, are features of great novelty and beauty. Arrangements have been made for the cheap transportation of articles for the Exposition. There are ample accommodations for all visitors. There will be reduced rates of fare on all railroads radiating from Cincinnati. Further information can be had from W. H. Stewart, Sec'y.

CLIMAX COOK

MANUFACTURED BY

TAPLIN, RICE & CO.

AKRON, OHIO.

SPECIALLY DESIGNED FOR THE WESTERN MARKET.

Oven No. 8, 20x21½x13 inches; Oven No. 9, 22x23½x14 inches.

Has peculiar and important features that make it the best operating stove in the market, and commend it to the favorable notice of dealers who desire a first class stove.

It is constructed with our patent flue, which descends in the rear and ascends in front between oven and fire box, forming a wide flue around back, bottom and front of oven, insuring an easy draft and uniform heating of all parts of oven.

The Reservoir is of planished copper, with deep, stamped pit, protected with cast iron, and is effectually heated without an extra damper. By removing reservoir and supplying its place with cover plates, a complete six-hole stove is obtained.

The fire-back is in three heavy interchangeable pieces. A water-back is provided, which occupies the same space as fire back, heats perfectly, and does not retard the heating of oven, for reasons of the intervening flue between it and oven.

The grate is hinged at its extreme back edge, and when dumped, gives a clear opening into a large ash pan. It can be partially dropped to remove clinkers from the front.

A receptacle for the covers, when removed from top of stove, is hung on swing bracket under front hearth.

Its neat design, nicely polished edges, nickel panel plates and trimmings, give it a very attractive appearance.

Send for prices.

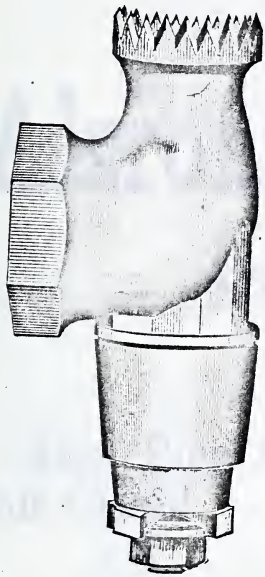
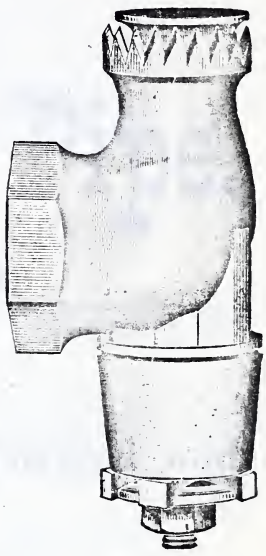
CHACE'S PATENT NOZZLE
FOR
Automatic Fire Extinguishers.



Valve Closed.

THIS
DEVICE
IS SURE
PREVENTIVE
AGAINST
FIRES.



Valve Open.

Always ready, certain and prompt in its action.

It wets down a fire before it gets under headway, even in the most inflammable materials.

The quicker the fire the more promptly the extinguisher operates.

It discharges water where it will do the most good, hence the water damage is the least possible.

It delivers water more promptly than fire engines, and in quantities according to emergencies.

Factories working wood, cotton, wool, gums and oils can be securely protected by Automatic Fire Extinguishers.

Reduction in insurance rates makes it a paying investment.

TO THE AFFLICTED.

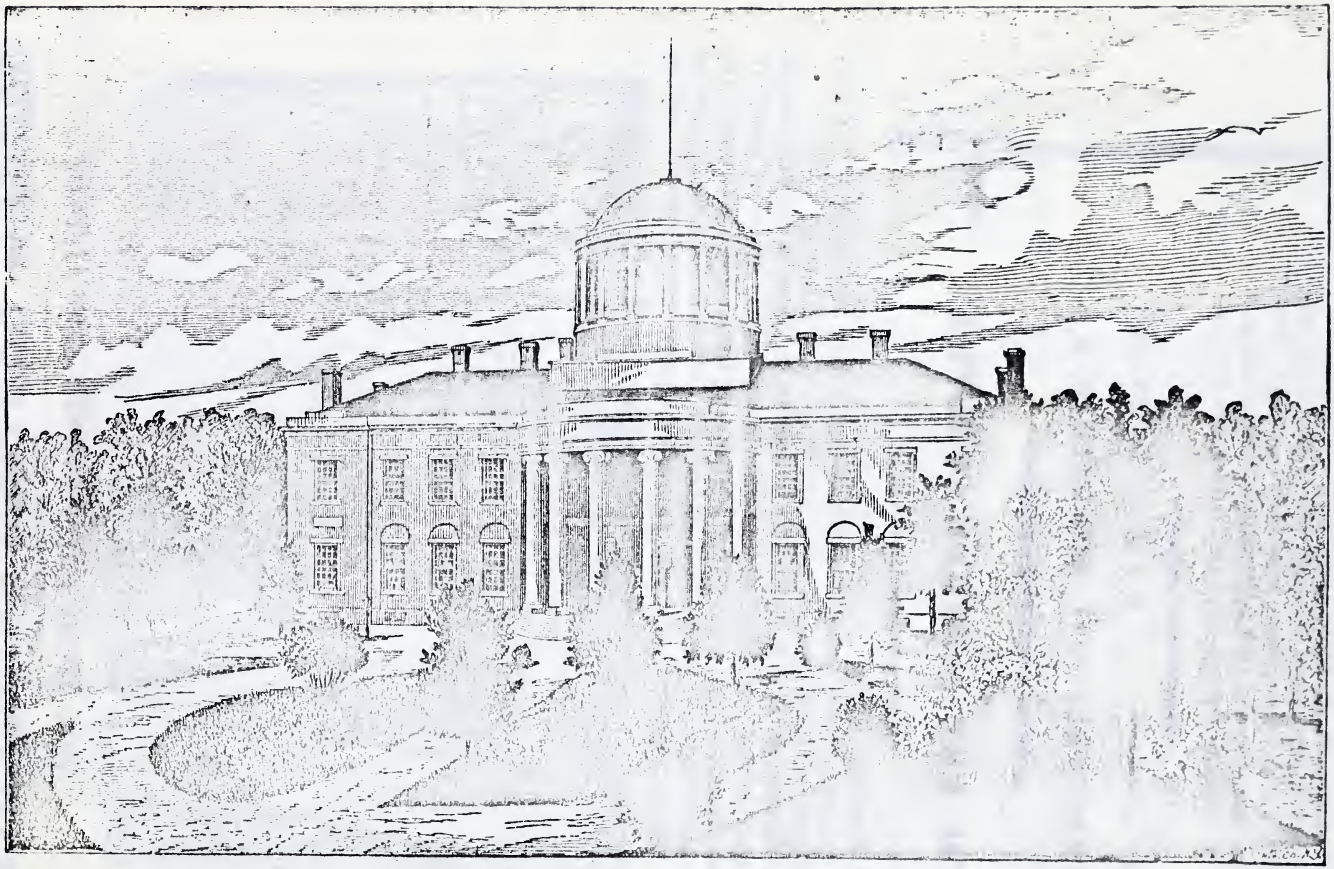
DR. S. MOSHER,
PHYSIO-MEDICAL PHYSICIAN,

TREATS ALL DISEASES, both acute and chronic, successfully, being the only Physician in the Northwest who rejects all poisons and can prepare and use nature's remedies scientifically. The Doctor can in all cases make a positive and correct diagnosis, telling the patient what results may be expected from his treatment, without the science of guessing.

The Doctor's success in all Diseases of the Kidneys and Weakness of the Urinary Organs, so depressing to the nervous system, and which eventually lead to such fearful results, has been truly marvelous. Bright's Disease can, by his safe and efficient remedies, be entirely cured. The Doctor can also afford speedy and permanent relief in Rheumatism; has never failed to cure this distressing complaint. He treats with success Asthma and all Diseases of the Throat and Lungs. But do not procrastinate: come before the door of hope is closed against you. All who have felt the premonitory symptoms of Paralysis, or are suffering already from its touch, should not hesitate, but call upon the Doctor immediately and try his method of cure. Catarrh, which is hurrying thousands to premature graves, can be easily cured in its first stages. Dyspepsia in its most aggravated forms, Heart Disease, Scrofula and Skin Diseases, Sore Eyes, Debility, Impediment to Marriage, Depression of Spirits, Loss of Appetite and Energy, Pain in Head, Back and Limbs, Timidity, Indecision, Dizziness, Impaired Sight and Memory, Bodily Prostration, Wretchedness and Insanity, caused by Spermatorrhœa or Self-Abuse, Syphilis, and all kindred diseases yield to his treatment. To all unfortunate sufferers he would say, do not despair, but avail yourselves of his safe and effectual treatment, which alone can restore and rescue you from premature death.

His treatment in most cases will not interfere with business duties of the patient, but they can be prosecuted with more than ordinary vigor, as it clears the head and tones up every part of the system. All medicines prescribed are prepared and furnished at the office. Consultation, personally or by letter, free and strictly confidential. Office and residence: Corner of Fourth and Jackson Streets, opposite Central School building. Address:

DR. S. MOSHER,
P. O. Box 106, Sioux City, Iowa.



State Capitol, Harrisburg, Pa.—On the 31st of May, 1819, the corner stone of the Capitol was laid by Governor Findlay. The building was completed in 1821, and first occupied by the General Assembly on the 3d of January, 1822.

Grand Opera House, Cincinnati, Ohio,

Is located on the corner of Vine and Longworth streets, with entrances on both Vine and Longworth. The main entrance, on Vine street, is 16 feet wide, through a vestibule 80 feet deep, level with the street, with box offices on either side; then, through sliding doors, a lobby 16 feet square, from which three sets of doors, each 13 feet wide, open respectively into the foyer of theater, the reception-room, and to the Longworth-street entrance. This vestibule and lobby are tiled with red, white and black marble, with paneled wainscoting of cherry. The ladies' reception-room is 16 by 30 feet, with check and retiring-rooms and all modern toilet arrangements and furniture. An entrance to second tier leads also from this lobby The foyer is 10 feet wide by 82 feet, and separated from parquette circle by a partition with stained glass windows, with curtained openings opposite the aisles. The main entrance to second tier and gallery is from Longworth street, by iron stairways 8 feet wide to lobbies on each floor. The foyer on second tier is similar in finish and size to that on principal floor. There are 12 proscenium boxes, 6 on each first and second floor, of an open design, highly ornamental, with polished brass railings and partitions of drapery hung to gilt rails. The orchestra is 7 feet wide by 50 feet, sunk below the parquette floor, but not out of sight. There are 6 drop curtains, each intending to represent the character of the coming act, the front one of iron. The mouldings of the prosceneum are also of iron. A 22-inch wall runs from this to both sides of the building, the openings in which are covered by iron doors, thus completely cutting off the stage from the auditorium in case of fire. The stage arrangement is Waugh's patent, and differs from anything now in any theater. The auditorium is 82 by 79 feet to drop curtain. The stage is 46 feet deep by 62 feet high to rigging floor; has four fly galleries hung from the roof; is thoroughly ventilated, and is capable of putting on the largest show pieces. There are 17 dressing-rooms—5 on the stage and 12 on trap-room floor. The seating capacity is 2000, having 700 chairs in parquette and dress circle, 550 in the balcony, and 750 in the gallery. The 12 private boxes will seat 6 people each, making 72 in all.

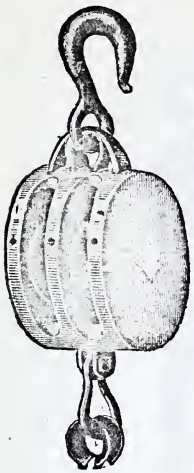
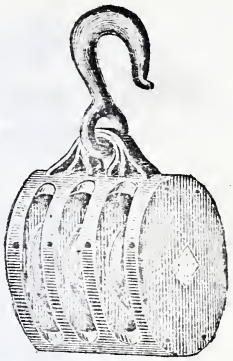
IMPROVED SLEEVE ROLLER BUSHED Tackle Blocks.





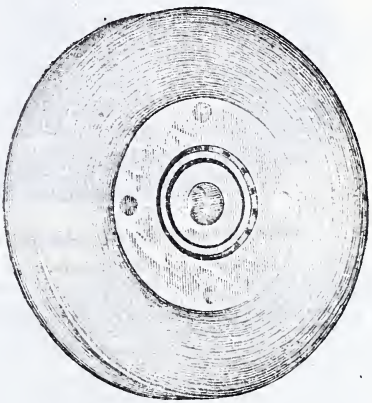
HARCOURT PATENT.

SLEEVE ROLLER SHEAVE.

HARCOURT PATENT.

Our Improved Snatch-Block will be found to be the simplest in construction and in every way the best Snatch Block in the market; and will unlatch by simply throwing the hook around to right angles, bringing the lip in line with the link; and is strapped both on the outside and inside, making it the strongest Snatch Block in the market, as well as the easiest to operate.

New Improved
SNATCH BLOCK.
Clasp Closed.



Our Improved Sleeve Roller Bushing combines the strength of a common Bushed Block, together with the purchase of a Roller Bushed Block. The sleeve, turning slowly on the pin, will constantly change its bearing, thereby receiving an equal wear on every part, and has the advantage of a large surface for the rolls to run over.

ONE-HALF METALINE BUSHING.

Can be run at quickest rate of speed without the use of any oil, being self-lubricating, and is designed for steam and heavy hoisting.

New Improved
SNATCH BLOCK.
Clasp Opened.

Robinson's Opera House, Cincinnati, Ohio.

Is located on the corner of Ninth and Plum streets. The main entrance is on Ninth street stage entrance on Plum street. The building is of brick and stone, with galvanized iron cornices and an iron veranda running the entire length of the Ninth street front, one hundred feet, arranged as an excellent fire escape for the upper stories for both the theater and office rooms. The entrance to the theater is twenty by thirty feet; from the vestibule the promenade is reached by five steps. From the promenade are the entrances to the parquette and parquette circle. The entrance to the family circle and gallery is from the right and left sides of the lobby, the gallery having a separate ticket office and entrance. The seating capacity of parquette and parquette circle is 700; of family circle is 450, and of the gallery 650, making a total of 1,800 seats, not including the private boxes, which will seat twenty-four people comfortably, there being four boxes, two on each side of the proscenium. The dimensions and conveniences of the stage are so complete as to permit the presentation of the largest spectacular pieces. There are five dressing rooms opening off the stage and seven from the trap room under the stage, all of which are supplied with water, and handsomely furnished with all the modern conveniences. From the west side of the stage is the scene room, capable of storing forty pairs of flats. The stage is fully stocked with scenery of all kinds.

THE JOHNSON PATENT RAILWAY HEATER,

For Generating Steam, and for Steam and Water Circulation.

Forming two independent currents, hot water for moderate weather, reinforced by steam for severe cold. Heating capacity estimated at 125 per cent. over any other apparatus in use, with one-third less fuel. Noiseless and non-explosive in operation, constructed without valves or checks, and requiring no mechanical arrangement for safety—a device with open pipes. Steam circulation, without pressure, affording heat free from objectionable odor arising from over heated steam. The invention consists in the construction and arrangement of mechanical devices and philosophical combinations through which the results are obtained. The accompanying drawings will place the system in an intelligible form

The substantial construction and guarded arrangement of the **Johnson Heater** ensures safety from fire or explosion to a far greater degree than by any device heretofore produced. The success of this system of heating is now fully demonstraied by its application upon a large number of passenger cars on the leading railroads of New England.

OLD COLONY RAILROAD, SUPERINTENDENT'S OFFICE, BOSTON, MASS., January 12, 1882.

TO THE JOHNSON RAILWAY HEATER CO., BOSTON:

Gentlemen—Forty or more of our passenger cars are furnished with your patent heater, and it is working very satisfactorily. Our people are all pleased with it. Yours truly,

J. R. KENDRICK, Superintendent.

MAINE CENTRAL RAILROAD, PORTLAND, February 11, 1882.

TO THE JOHNSON RAILWAY HEATER CO., Boston:

Gentlemen—We have twelve of your Heaters in use on this road; they are giving good satisfaction and doing all that you claim for them. Yours truly,

PAYSON TUCKER, Supt.

EASTERN RAILROAD COMPANY,
OFFICE MAST TRANSPOTATION,
BOSTON, March 23, 1882.

ROBERT JOHNSON, ESQ., Treasurer Johnson Heater Co.;

Dear Sir—It gives me pleasure in testifying to the excellence of the Johnson Heater, which we now have in use on this road. It is absolutely non-explosive, a great saver of fuel, and more easily managed than an ordinary coal stove. The temperature of the cars is uniform and gives good satisfaction to the patrons of the road. We have at the present time twenty-six of them, and shall soon add more. Forty minutes after a new fire was built, the thermometer was up to 60 degrees. Yours truly,

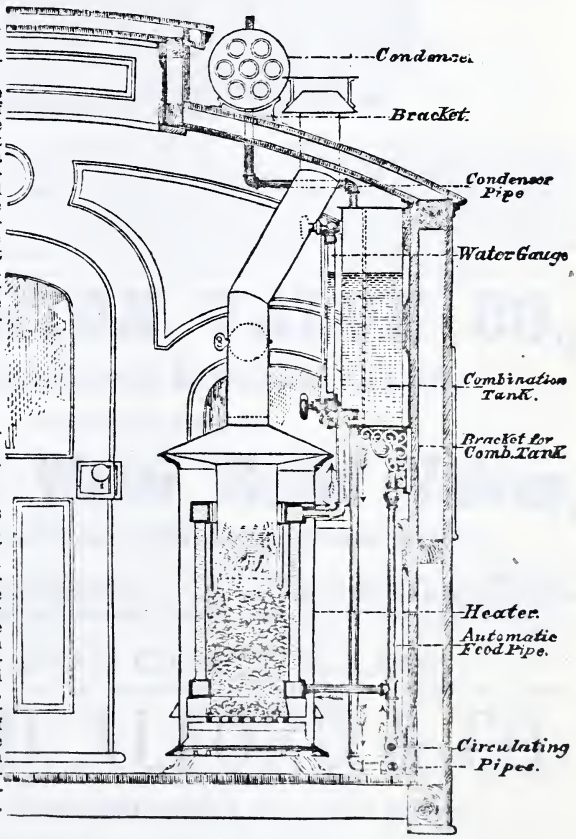
D. W. SANBORN,
Mast. Trans.

OLD COLONY RAILROAD,
BOSTON, Feb. 1, 1882.

TO THE JOHNSON RAILWAY HEATER CO.:

Gents—In answer to your inquiries as to how we like the "Johnson Heater" which you placed on the Steamboat and other trains running on our road, in October, 1879, we would state that they have given us entire satisfaction. Its absolute safety from explosion, as well as danger from fire in case of accident, the economy in the use of fuel, the short time required to fire up and establish the heat circulation, the simplicity of its operation, the small amount of care required to run it, the uniformity of heat, the excellent ventilation and absence of impure gases in the cars, are among the points which seem fully established in this new invention. We are now using fifty-six of your Heaters on this road.

A. GLEASON,
Master Car Builder.
A. R. PORTER, Conductor Steamboat Train.



OLD COLONY R. R., OFFICE OF PASS. TRANSPORTATION MASTER, BOSTON, January 11, 1882.

ROBERT JOHNSON, Esq., Treasurer of Johnson Heater Co.:

Dear Sir—It gives me pleasure to testify to the excellence of the "Johnson Heater," which is in use on this road for the third winter. It is absolutely non-explosive, a great saver of fuel, and more easily managed than an ordinary coal stove. The temperature of the cars is uniform throughout, and gives great satisfaction to the officers and patrons of the road. We are using over fifty of them at the present time, and we shall introduce them into fifteen new cars now building, and are putting them in the older cars as fast as opportunity presents. The larger number of the cars referred to seat seventy-four passengers. Very sincerely yours,

J. C. SANBORN, Passenger Transportation Master.

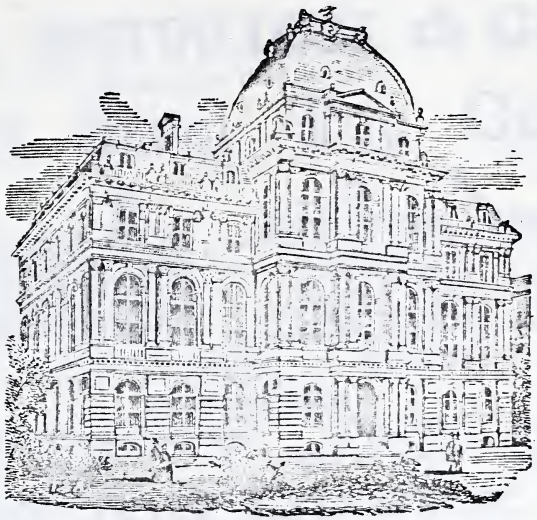
WORKSHOPS: NO. 30 UNION PARK STREET, BOSTON, MASS.



City Hall, Boston.—The corner-stone was laid on the 22d of December, 1862—the anniversary of the landing of the Pilgrims at Plymouth. The amount first appropriated was $160,000, but before the building was occupied the actual cost was more than half a million dollars. The building was completed and dedicated on the 18th of September, 1865. The tablet in the wall back of the first landing perpetuates, in beautifully-worked marble, the statement that the dedication took place on the 17th of September. This day would have been highly appropriate for the ceremony, being the two-hundred-and-thirty-fifth anniversary of the settlement of Boston, had it not fallen on Sunday. The ceremony was accordingly postponed until the following day.

The corner-stone was laid on the 16th of October, 1871. Our sketch shows the Post Office as it is. It has a front of over two hundred feet on Devonshire Street, occupying the whole Square between Milk and Water streets, and it is, sooner or later, to be extended to Congress street. The Government has never before owned the building in which the Boston Post Office was located. The upper stories of the new Post Office are occupied by the Sub-Treasury. The building was completed and occupied early in 1875. The entire cost to the Government exceeded $3,000,000.

Faneuil Hall, "The Cradle of Liberty."—This Building was presented to Boston by Peter Faneuil. It was erected in 1742, destroyed by fire in 1761, and immediately thereafter was rebuilt by the vote of the town. In 1805 it was enlarged to its present size, and until 1822 all town meetings of Boston were held within its walls. The hall is 76 feet square and 28 feet high. It is never let for money, but is at the disposal of the people, whenever a sufficient number of persons, complying with certain regulations, ask to have it opened. By a provision in the charter of Boston, it is forbidden the sale or lease of the hall.

NEW PATENT

FOOT POWER MACHINES

SAVE FORTY PER CENT. IN TREADING POWER.

The Chief Mechanical Points of Superiority are, it is simple, durable and effective. It is a positive motion, and is applied in the closest proximity to and on a perfectly smooth shaft. There is no **Crank**, consequently no dead center to overcome. It is always ready to start and to run in the right direction. It will give a far greater speed and power with less effort and less treading than any other known Foot Power Machine. The foot can remain at rest on the treadle while the machine continues to run, thus avoiding the motion of the limb necessary in all crank motions, even when the power is not needed. **It is applied to Jig and Circular Saws, Coffee Mills, Sewing, Scouring and Buffing Machines, Jewelers', Dental and other Lathes,** and all machines requiring rotary motion.

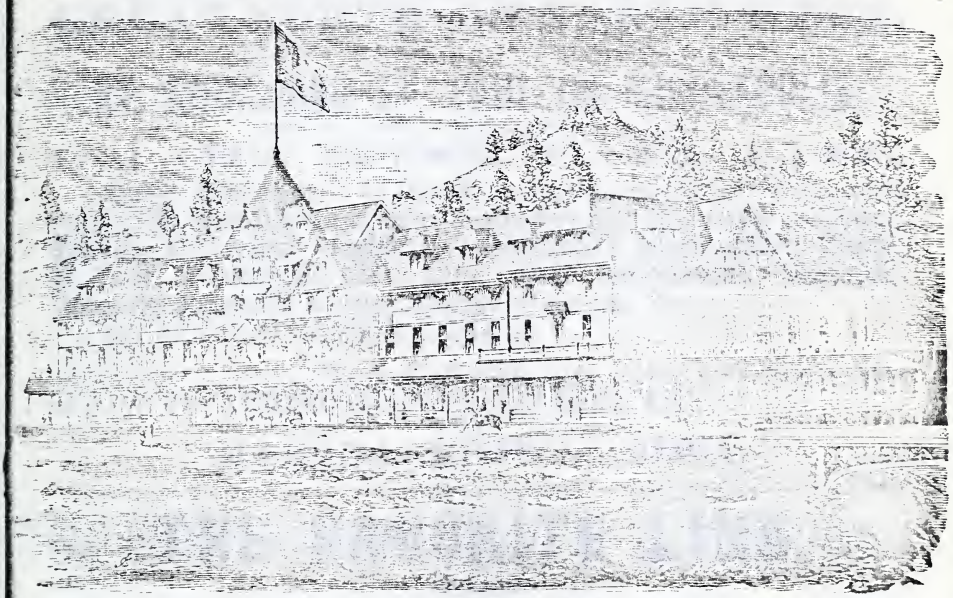
PICTURESQUE AND HISTORIC.

THE GREAT SOUTHERN ROUTE

From the Missouri River to the Pacific Coast



THE MONTEZUMA.

Las Vegas Hot Springs, Las Vegas, New Mexico.

This Popular Trans-Continental Route is composed of the

ATCHISON, TOPEKA & SANTA FE,

—AND THE—

SOUTHERN PACIFIC RAILROADS.

If you want to go to Kansas, take the Atchison, Topeka and Santa Fe for the great Arkansas Valley, the prize Agricultural and Stock-growing country of the world.

If you want to go to Colorado, take the Atchison, Topeka and Santa Fe, the shortest by twelve hours.

If you want to go to New Mexico or Arizona, take the A., T. & S. F. R. R., the only route to these rich and rapidly developing territories. The A., T. & S. F. and Atlantic and Pacific Railroads make up the shortest route to Prescott, by nearly 200 miles. The A., T. & S. F. is also the best route to Old Mexico.

If you want to go to California, or any of the Pacific Coast States or Territories, take the Southern Route; get the benefit of its superior equipment, and the fact that it traverses the most interesting country on the continent.

Elegant Coaches and Pullman's luxurious Sleeping Cars. Emigrant Sleeping Cars without extra charge.

LAS VEGAS HOT SPRINGS.

This Great Sanitarium, on the southern slope of the Rocky Mountains, is the place to go for health, wealth or pleasure; it is Territorial head-quarters. Thermal waters, by the aid of whose healing properties the most remarkable cures have been effected; first-class hotels (one of which is shown above); grand scenery; public gardens; mountain drives; an agreeable climate all the year round; hunting and trout fishing—are among the attractions of the place. The latitude is that of central Tennessee, while the altitude is 6,400 feet. Santa Fe, the oldest city in the United States, is only half a day's ride by rail from Las Vegas.

GRAND RAPIDS & INDIANA R.R.

The Only Route to the

TROUT, GRAYLING AND BLACK BASS FISHERIES,

—AND THE—

Famous Summer, Health and Game Resorts and Lakes of

NORTHERN MICHIGAN.

THE WATERS of the Grand Traverse region and the Michigan North Woods are unsurpassed, if equaled, in the abundance and great variety of fish contained.

BROOK TROUT abound in the streams, and the famous **AMERICAN GRAYLING** is found only in these waters.

THE TROUT SEASON begins May 1st and ends September 1st; **THE GRAYLING SEASON** opens June 1st and ends November 1st.

BLACK BASS, PIKE, PICKEREL and **MUSKALONGE** also abound in large numbers in the many lakes and lakelets of this territory. The Sportsman can readily send trophies of his skill to his friends or "Club" at home, as ice for packing fish can be had at nearly all points.

TAKE YOUR FAMILY WITH YOU. The scenery of the North Woods and Lakes is very beautiful. The air is pure, dry and bracing.

THE CLIMATE is peculiarly beneficial to those suffering with Hay Fever and Asthmatic Affections.

NEW HOTELS, with all modern improvements, are being erected, and will be ready for the season of 1882, besides many extensive additions, which will guarantee ample accommodations for all.

THE EXTENSION OF THIS LINE from Petoskey to Mackinac is under contract, to be finished by June 1, 1882, after which time there will be daily trains to Mackinac, Marquette, L'Anse, Negunnee, etc., forming the most direct route from Cincinnati, Louisville, Indianapolis, Columbus, Dayton, Pittsburgh, and all Southern, Southwestern and Southeastern points.

During the season **ROUND TRIP EXCURSION TICKETS WILL BE SOLD AT LOW RATES**, and attractive train facilities offered to Tourists and Sportsmen.

Dogs, Guns and Fishing Tackle Carried free at Owners' Risk.

It is our aim to make Sportsmen feel "At Home" on this Route.

TO THE AFFLICTED.

DR. S. MOSHER,
PHYSIO-MEDICAL PHYSICIAN,

TREATS ALL DISEASES, both acute and chronic, successfully, being the only Physician in the Northwest who rejects all poisons and can prepare and use nature's remedies scientifically. The Doctor can in all cases make a positive and correct diagnosis, telling the patient what results may be expected from his treatment, without the science of guessing.

The Doctor's success in all Diseases of the Kidneys and Weakness of the Urinary Organs, so depressing to the nervous system, and which eventually lead to such fearful results, has been truly marvelous. Bright's Disease can, by his safe and efficient remedies, be entirely cured. The Doctor can also afford speedy and permanent relief in Rheumatism; has never failed to cure this distressing complaint. He treats with success Asthma and all Diseases of the Throat and Lungs. But do not procrastinate; come before the door of hope is closed against you. All who have felt the premonitory symptoms of Paralysis, or are suffering already from its touch, should not hesitate, but call upon the Doctor immediately and try his method of cure. Catarrh, which is burrying thousands to premature graves, can be easily cured in its first stages. Dyspepsia in its most aggravated forms, Heart Disease, Scrofula and Skin Diseases, Sore Eyes, Debility, Impediment to Marriage, Depression of Spirits, Loss of Appetite and Energy, Pain in Head, Back and Limbs, Timidity, Indecision, Dizziness, Impaired Sight and Memory, Bodily Prostration, Wretchedness and Insanity, caused by Spermatorrhœa or Self-Abuse, Syphilis, and all kindred diseases yield to his treatment. To all unfortunate sufferers he would say, do not despair, but avail yourselves of his safe and effectual treatment, which alone can restore and rescue you from premature death.

His treatment in most cases will not interfere with business duties of the patient, but they can be prosecuted with more than ordinary vigor, as it clears the head and tones up every part of the system. All medicines prescribed are prepared and furnished at the office. Consultation, personally or by letter, free and strictly confidential. Office and residence: Corner of Fourth and Jackson Streets, opposite Central School building. Address:
